"For over nine years I suffered with chronic constipation and during this time I had to take an injection of warm water once every 24 hours before I could have an action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years before I used Cascarets I suffered untold misery with internal piles. Thanks to you, I am free from all that this morning. You can use this in behalf of suffering humanity. B. F. Fisher, Roanoke, Ill."

been found five miles and more in depth. The greatest depth yet sounded is 31,200 feet, near the Island of Guam. Into this terrific abyss the waters press down with a force more than 10,000 pounds to the square inch. The staunchest ship ever built would be crumpled under this awful pressure like an egg shell under a steam roller. A pine beam fifteen feet long, which held open the mouth of a trawl used in making a cast a depth of more than 18,000 feet, was crushed flat as if it had been passed between rollers. The body of a man who should attempt to venture to such depth would be compressed until the flesh was forced into the interstices of the bone and his trunk was no larger than a rolling pin. Still the body would reach bottom, for anything which will sink in a tub of water will sink to the utmost depth of the ocean.

DECEASED DID NOT USE MORPHINE
The news telegram in The Journal Friday, announcing the death in Mobile of W. L. Linton, stated that the deceased had been addicted to the use of morphine. This statement was an error. Mr. Linton had been a resident of Escambia county for many years and some of his family now reside here, near Olive. Every one who knows him will testify that he did not use the deadly drug in any form, and this announcement is made for the purpose of correcting the error.

A. E. HERPIN HAS STRANGE MALADY

SAYS HE HAS NOT SLEPT FOR FIFTEEN YEARS AND A WONDER TO THE DOCTORS—PEOPLE OF TRENTON, N. J., CALL HERPIN "WAKEFUL WONDER."

A special from Trenton, N. J., says: Albert E. Herpin, Trenton's "sleepless wonder," has turned inventor. He says his wakefulness has made his fortune. He has invented a process for underglaze photography, by which he asserts that he can reproduce portraits of schools, churches, etc., on chinaware at about the same cost as the placing a photograph on paper. The new process does not consist of placing photographs on ware and then varnishing as is done in some cases, but the ware is fired in enamel kilns, making it practically everlasting.

Photographs on chinaware have been in use for many years, but are usually found to be too expensive, especially when only one piece of ware is made. Herpin says that the new process will take its place.

Awake for Fifteen Years.
Herpin is known as a "sleepless wonder" according to his friends he has not slept in fifteen years. He rests at night like other mortals, but he says that his brain is always active and that he rarely closes his eyes. Some time ago he was offered \$2,000 to demonstrate his claim. He was to remain awake two weeks, being constantly watched during that period by physicians. He accepted the offer, but when the date for the demonstration arrived the physicians failed to put in an appearance.

Herpin says his affliction began fifteen years ago, when his wife died. He suffered greatly from shock then and asserts he has never slept since. Trenton physicians who have watched Herpin during these years say his story is true and declares he is suffering from a strange malady which brings with it constant sleeplessness. Physically Herpin seems perfect and is able to work as hard as the average man.

For a time this "sleepless wonder" was employed by a city street cleaning department, but he soon got a better position, and is now considered wealthy. Herpin troubles about only one thing; that is, he says there are many women who desire to marry him. He shows his friends daily letters he receives from members of the fair sex proposing marriage.
